AUGUST 3, 1852.

RIVER AND HARBOR BILL

The *Sentinel* yesterday was as full as usual of misrepresentations on this subject. It gets up a bogus list of members of Congress, containing numerous omissions of democrats who voted in favor of the bill, and in order to dwarf down to the smallest possible proportions the number of whigs who voted against the appropriations, classes, among the democrats, such men as Humphrey Marshall of Kentucky; a man who is known to the country as one of the most distinguished whigs of that thoroughly whig State, and at the same time, one of the most bitterest enemies of Internal Improvements. Does the *Sentinel* hope to deceive the intelligent people of the West by such shallow and transparent frauds?

The people of the West will not forget,

That a Democratic Committee on Commerce have reported a bill appropriating over one million, five hundred thousand dollars for Internal Improvements, of which eight hundred and fifty two thousand dollars are set apart for Northern and Western Rivers and Harbors.

That a House of Representatives, "overwhelmingly democratic," have passed the bill by a large majority.—*Morning News.*

Out of the one inadvertence of the *Sentinel* in setting up the table of votes, that of placing Mr. Marshall's name on the wrong side, the *News* makes the remarkable article which we copy above. We have already given the figures accurately, and the *News* dare not give them, since they show that only 40 democrats, out of 138, voted for the bill.

Now we give below an accurate statement of the *names* of the members who voted on the passage of the bill. It is no "bogus list," and the *News* knows it well. Let us see if that paper dares publish it :

FOR THE BILL.

ABSENTEES.

Whigs 17, Locos 36, Free Soil 1.

We have yet to see the full table of this vote, designating parties, published in a single Loco Foco paper. They will talk largely of the passage of the bill through a "democratic" house, but they *dare not* tell their readers who voted for, and who voted against it.

There are some items in the table worthy of note. *Not one* northern whig voted Nay, while no less than 21 out of the 62 Loco votes in the negative were northern men, who chose to be consistent with their platform, and vote against the interests of the West. "Democratic" Virginia voted in solid phalanx in the negative, the only whig present voting *aye*. The democrats from North Carolina voted *Nay*—all but one of the whigs *Aye*. More than this; Messrs. Peaslee and Hibbard represent New Hampshire democracy—Mr. Pierce's democracy,—in the House, and *they both voted against the bill !*—while Messrs. Perkins and Tuck, the whig and whig free soil members from that state, *both voted for it.*

Here then the matter stands. A fair, just, meritorious bill, according to the Buffalo *Courier's* admission, is reported by a democratic Committee to a House in which there are 138 democratic members, of whom 102 are present and vote; and out of this number, forty only can be found to vote for the bill, while SIXTY TWO record their votes against it, and among these last are the representatives from New Hampshire, Mr. Pierce's own state—the Gibraltar of Democracy.

When the *News* concludes to publish the table of votes, it is welcome to add our comments also.

Grant of Public Lands.

Mr. W. W. BROWN, of this city, who was appointed by the Governor to proceed to Washington and adjust, if possible, the disputed account between the State and General Government, in regard to grants of Public Lands, returned successful from his mission on Saturday last. The U. S. law, it will be remembered, gives to each State, on its admission into the Union, 500,000 acres of the Public Lands. In making out the account for Wisconsin the General Government deducted from our 500,000 acres the amount (138,966 acres) donated to the Milwaukee and Rock River Canal Company. The State demurred to any larger deduction than 13,000 acres, being the balance *unsold* of the Canal Grant. This view of the case, we are happy to say, has now been sustained by the General Government, and Mr. BROWN brings home with him an order from the Commissioner of the General Land Office authorizing the Governor to locate the amount of 125,950 acres, being equal to that portion of the Canal Grant sold by the Territory of Wisconsin. This will prove a welcome addition to our common School Fund, to which, by the Constitution of our State, the grant is to be devoted.

We learn farther from Mr. BROWN, that in all probability *none* of the bills, ranking grants of Public Lands for various purposes, will pass Congress at this session. He thinks too, that the River and Harbor Bill is safe in the Senate, because the majority in that body dare not defeat it.

British vs. American Interests.

The London correspondent of the N. Y. *Herald*, writing under date of July 20th, communicates this piece of intelligence :

The nomination of General Pierce, of New Hampshire, as the democratic candidate for your next President, has had a wonderful effect in inspiring confidence among the British *capitalists*.—No one seems to entertain a doubt of his election in due time, especially since the propitious event of the nomination of General Scott by the whigs.

It is natural enough for "British Capitalists" to go in strong for Gen. PIERCE. The London *Times* certifies him to be "*a valuable practical ally*" for England's Commercial policy, and the Manchester and Birmingham papers confidently count upon his aid and "co-operation" in "encouraging the industry" of these great manufacturing marts. But the policy which employs Foreign in preference to Home Labor, which encourages British rather than American Enterprize, and which builds up Manchester and Birmingham at the expense of Pittsburgh, Lowell and Lawrence, is *not* the policy to find favor with the American Masses, however acceptable it may be to "British Capitalists."

THE MASSES VS. THE LEADERS.—The N. Y. *Tribune* closes a brief article about the prodigious cackling the Loco Foco papers are making over some half-dozen "prominent Whigs," who can't support Gen. SCOTT, with the following truthful remark :

They were all "leading Whigs" when they were Whigs at all—not a man among them lives in a house that cost less than ten thousand dollars —all gentlemen of property and standing ' whose politics is a matter of business, and *for every one of them there are ten good and true men hitherto hostile to the Whig party who will vote for Winfield Scott.* These are not 'leading,' nor 'eminent' Democrats; they don't want their names paraded in the newspapers; but they always vote, and their votes are as good as other men's! See how they count out next November !

There is no question about this fact. The sort of "boiling" referred to by the *Tribune* helps, instead of hurting the good cause. We undertake to say that in this single city of Milwaukee—aye, in one ward of it—there will be more than enough good Democrats found voting for Gen. SCOTT in November, to outnumber all the "prominent Whig" bolters in the entire Union. It don't matter much, indeed, how the "leaders go" this election. THE PEOPLE have taken the job of electing Gen. SCOTT, and mean to "boss" it themselves.

RECIPROCITY.—The principal value of our imports from Canada, consists of breadstuffs which enter our ports under our warehousing law as free of duties, and enter into our markets as much in competition with our own products of the same articles as if admitted under the proposed reciprocity.

So says the Oswego *Commercial*, which, under the influence of local interests, favors what is miscalled the "Canadian reciprocity" policy. The Canadian breadstuffs *do* enter our ports free of duties, when they are merely in transit for foreign ports; but so soon as they are thrown upon our markets for consumption, they are rated at 20 per cent duty. The Canadians wish to supply our markets and have the duty taken off. That is the whole story. The project don't suit Western farmers at all.

THE SCOTT VOLUNTEERS.—Our Milwaukee Scott Club turned out in good numbers on Saturday evening, to talk over matters of business, and take counsel together. The regular working men were on hand, and gave good reports of the progress of the canvass for Scott & Graham, for Western interests, and for River and Harbor Improvements. The Club was addressed by M. H. ORTON, J. D. MERRILL, R. N. ACSTIN and others. Several good campaign songs were given with effect, although the Glee Club was not yet prepared to sing.—The meeting broke up at a late hour, with the resolution to work hard, and plant every blow in the right place.

OSHKOSH SCOTT CLUB.—The Friends of Gen'l Scott met at Oshkosh on the 31st, and organized a Club, with the following officers :

Alvah Hand, President; Lucius Olcott, and Chester Ford, Vice Presidents; Geo. W. Mower, Secretary; E. L. Buttrick, Corresponding Secretary; Peter McCourt, Treasurer; William Markham, Marshall.

They are working men, and will give a good account of themselves in November.

WINNEBAGO CO. FREE SOIL CONVENTION.—The Free Democracy of Winnebago County met at Oshkosh on the 30th in Convention, and passed resolutions re-affirming the Buffalo platform, and declaring their intention to stand upon it.

The News and Mr. Crawford.

The *News* of yesterday takes umbrage at our brief affirmative answer to a correspondent, who inquired if Mr. CRAWFORD, one of the party nominees for the Supreme Court, was the same individual who shot a Mr. MURRAY, in the streets of Mineral Point, a few years since. The *fact* itself the *News* does not dispute, but it construes its publication into an "assault" upon Mr. CRAWFORD, and warns us that this "mode of warfare" will help the Democratic ticket. We rejoice to see these symptoms of amendment in the *News*. If the publication of an undeniable *fact* in Mr. CRAWFORD's history, constitutes so grievous an offence and is calculated to aid so much in his election, we invite the *News* to consider what must be the effect of the gross, wanton and calumnious fabrications which it almost daily utters against WINFIELD SCOTT.

As to Mr. CRAWFORD, we are free to say that we think him the least objectionable candidate presented by the packed party convention at Madison. He is a man of fair talents, a lawyer of respectable ability and large practice, and a citizen in good standing among his Western neighbors Still we do *not* think him, by any means, up to the standard which ought to be required for the Supreme Judicial Tribunal in this State.

Items by the Niagara.

The steamship *Niagara*, which arrived at Halifax on the 4th instant, brings the result of the Elections. Contrary to expectations, the last returns show a majority for the Derby Ministry. The numbers are, Ministerial 325, Opposition 272. This includes 40 "Liberal conservatives" among the supporters of the Ministry.

At a Yacht race at Cowes, July 22, the *America* was beaten 2 minutes and 3 seconds by a new yacht, the *Arrow*.

The French President's visit to Strasburg is said, by the Government papers, to have called forth great demonstrations of popular enthusiasm.

The Cotton market was lower and Breadstuffs much depressed. Money, however, was very abundant and manufactures prosperous.

No special news from Europe.

LIES WELL STUCK TO.—The Sheboygan *Journal* of last week publishes the exploded fiction about the Pierce Club in Newark, "composed of 250 original Whigs." There is no "Pierce Club" of any kind in Newark, and not half-a-dozen Whigs in the whole city who don't support Gen. SCOTT. The Jersey Blues are "sure fire" for SCOTT in November next.

The *Journal*, following the lead of the *Volksfreund* and the *News* of this city, also gives currency to the gross fabrication (already repeatedly exposed and branded in our paper) that while editing the Albany Daily *Advertiser*, we expressed the opinion that "no man of foreign birth should be admitted to the exercise of the political rights of an American citizen." We wait to see if the *Journal* will persist in, or withdraw, this forgery.

NEWS FROM IOWA.—We find the following in the Chicago *Journal* of the 7th. It is almost too good news to be true :

Iowa Speaks for the West !—By special despatch from a friend at Galena we have the following regarding the Iowa election.

Galena, Aug. 7.

Editors of the Chicago Journal.

By returns just received we learn that Jno. P. Cook, whig, of Davenport, has been chosen to represent the 2d Congressional District in Iowa over Clark, democrat, by a majority of 500 to 700—Judge Vieh's chance for an election over Henn, the present Democratic incumbent, are considered good.

The House is considered safe for the Whigs, and Iowa may be counted for Scott.

☞ The Pennsylvanian, a Locofoco journal which is now daily filled with abuse of Gen. Scott, published the following, after the receipt of the victory of Cerro Gordo:

The military genius and foresight of Scott shone out conspicuously on the steps of Cerro Gordo.—With signal tact he planned the details, and with singular prescience prepared for the defeat which his soul must have told him was at hand. THE COUNTRY WILL BLOW OUT ALL OF HIS CIVIL HISTORY THAT IS SUBJECT TO CRITICISM OR COMPLAINT, AND WILL GREET HIM AS ONE OF HER WORTHIEST AND MOST DISTINGUISHED SOLDIERS.

PRESBYTERIAN STATISTICS.—From the statistics given in the Minutes of the General Assemblies this year, we gather the following account of the Old and New School Presbyterian churches in the United States :

	Old School.	New School.
Presbyteries,	140	106
Ministers,	2 039	1 527
Licentiates,	229	130
Candidates,	353	72
Churches,	2 733	1 602
Total communicants,	210 414	140 652

Total churches of both branches, 4,335—total communicants, 351,066.

LARGE WHEAT.—We were shown on Saturday, a number of grains of Spring wheat, from the town of Merton, Waukesha county, not quite as large as hen's eggs, to be sure, but full twice as large as any wheat we ever saw before. If they are fair specimens of the crop in Merton, the farmers there can challenge the world.

It does any one good to catch the sparkle of the Badger farmer's eyes this year, as he talks about his crops. If he only had a price corresponding to their quality, he would be about as happy a man as lives.

THE JAPAN EXPEDITION.—Advices from Aymay to the 8th of April, state that the sloops of war Plymouth and Saratoga, and steamer Susquehannah, were at Macao, waiting for the St. Mary's, on the arrival of which they would proceed to Japan.

According to late advices from Washington, the vessels ordered on the expedition from the U. S. ports are not yet ready to sail, except the Mississippi steamer, and she has gone to the fishing banks.

THE LAND BILLS IN THE SENATE.—The New York *Courier and Enquirer* learns by telegraph from Washington that the Committe on Public Lands in the Senate have rejected the Homestead and Land Distribution bill, Messrs. BALDWIN and DODGE voted *Aye*, and Messrs. FELCH, PRATT, and UNDERWOOD, *No*.—On Mr. BENNETT's Land Bill, Messrs. PRATT and UNDERWOOD, *Aye*, and Messrs. BALDWIN and DODGE, *No*.

☞ The *Volksfreund*, as yet, finds nothing to say in praise of the party nominations for the Supreme Court. It maintains what the *Wisconsin* calls "an expressive silence." The *Banner* speaks rather favorably of the nominees, but at the same time says : "we have already declared our unwavering view that no strict party question should be made of Judicial elections."

THE STUPINSKI MURDERS.—Mr. E. A. PENNIMAN, Inspector of the County Prison at Philadelphia, under date of August 3rd, again positively contradicts the story, recently revived and widely published, of STUPINSKI's having confessed to *eighty* murders in this country and in Europe. So far from this being so, Mr. PENNIMAN says that Stupinski denies having ever committed *any* murder, here or abroad.

ANIMALS ON RAIL ROAD TRACKS.—The President of the Plattsburgh and Montreal Railroad has published a notice that the Company will not hold themselves responsible for cattle killed on the track, but on the contrary will hold the owners of the cattle responsible for the damage caused to the property of the Company by such trespass.

THE AMERICA BEATEN.—The *Niagara* brought the news that in a late yacht race at Cowes, the *America* was beaten by another craft called the *Arrow*. The *America* has lost the use of her heels since she passed into John Bulls' hands.—Commodore Stevens will have to send over something to beat the *Arrow*.

☞ The *News* denies that it has abandoned the attempt to prove up its fictions about Mr. COLLINS, and promises that those "certificates" will be forthcoming yet. Our incredulity is proof against "promises." We wait for the "certificates."

MADISON & BELOIT RAILROAD.—At a late meeting of the Directors of this company, JOHN HACKETT Esq. of Beloit, was chosen President, in place of J. M. Keep, resigned,

For the Daily Sentinel.

A MODEL AMERICAN.

Messrs. Editors :—

The Morning *News* feels much troubled about the resolutions of the German Scott Volunteers; they don't like such a "fire in the rear." The Editor of the *News*, however, being all but angry, only indulges in their "grateful task to pity and enlighten" "the most profound and deplorable ignorance of the parties and institutions of the country."

We feel obliged to show ourselves thankful for this pitying and enlightening. So we are indebted to the *News* for the "news" that none but the Chairman and Secretary of a meeting signing the resolutions, is a proof that the meeting did comprise no more than two attendants! This discovery is rather wonderful. Another precious piece of information is that General Pierce's voting against *any* appropriation for Western Rivers, Harbors and Railroads, *which is on record*, is "nothing but opposition to squandering of the public money." Let these words of a leading democratic paper be put on record, that his voting *against* the reception of petitions is a "bugbear" and that "zealously supporting the Slavery power" is nothing but an "honest and undeviating maintenance of the equal right of all sections."—

Should we happen to get more such lectures upon "parties and institutions," we might have a chance to improve by and by.

The *News*, however, being ignorant of General Scott's talent organization, we may perhaps be able to tell them that the organization of the U. S. Army, as it exists *now* and especially the "General Regulations for the Army," and the "Infantry Tactics," were laid down by General Scott and are highly spoken of by the military writers of Europe, considering the small means to carry out purposes of military discipline and drilling in this country compared to the despotic power of European commanders. How to organize a regular army and well to organize it, too, requires a good deal of "talent for organization." This fact would "escape" nobody but a mere party hack.

The summit of virtuous indignation, however, the *News* reached, when speaking of our resolutions that symptoms of internal wickedness appear in the "violent efforts to make political opinions the only test in judicial and charter elections, and even the only test of personal worth; in the effort to force religion upon politics, and fanatically to mingle politics with private and business life."

The *News* feels bound in the name of every American citizen, native and adopted, "to repel the wholesale slander."

Now, Mr. *News*, with your leave, we won't accept you as a Representative of every American citizen. The pattern would not suit the high idea we always entertained of the American Nation many years before we came to the country. We saw you falsely accuse an old Hero of 44 years of having "bobbed down" for fear of bullets, in two duels: a fact which would have dishonored the American Army, and the whole body of the officers of the Army if they had suffered this silently; we saw you express an unworthy joy in telling your readers a story as if Colonel Scott had been whipped by two Indians, when captive at Niagara village after the affair of Queenstown. Any English officer would have felt ashamed, even in the raging of the war, to express a satisfaction with the cowardly abusing of a captive of war especially an officer of rank and merit; you, after 40 years, *you* dig out such a story, improbable as it is, serving it up to your readers with good humored smiling, like a Steward, who brings forth a first rate dish—and *this man*, you abuse so, blind for your own country, when you were an infant probably, carries English lead in his body, and gained victories when so many others came home defeated! And he never committed an offence against his country, nor against humanity, or honor! All you can charge upon him is, that he is the Nominee of your opponents. And you feel not ashamed to assault him in a manner the foes of this country would have repelled with disgust. Be off, Mr. *News* ! You can't be the Representative of "every American citizen." This requires other men than *you*.

We, however, never said that any "*party* in this country makes party opinions a test in personal religious or business matters," but that there are "fanatical efforts to do so." How can you deny it? May be, you did not notice it: but then be another time more cautious about denying what you know nothing of. Last week a petition was published, calling for enforcing the Sabbath-law. Next day the *Volksfreund*, a leading Democratic paper, charged the gentleman who headed the list, with being a bankrupt. Is this *not* "mingling politics with business ?" Or is there any connection between a man's opinion of the Sabbath laws and his carrying on business? Respectable business men (Germans) of this city hesitate openly to come out for Scott, because there would be efforts made to ruin, or damage their business. For there is a certain faction in this city, represented by the *Volksfreund*, which really behaves as if a German had no liberty to join such a party as he chooses. There has been no business, no private life, no religious opinion, *not even female members of the family* have been spared wanton attacks and slanders in that paper, where the head of the family dared oppose its dictates. There is no quiet walking over the streets at evening time for some persons who have incurred the wrath of a fanatical cohlocracy, and this by doing *nothing else* than declaring their own political, or religious opinion, or their views of an election. If this be not fanatically mingling politics with private life, nothing is.

These real symptoms of internal degeneracy we repel, and we are right to do so. If it can afford any comfort for you, Mr. *News*, to believe we are only *two*, enjoy it! You will be undeceived at the ballot-box.

The Judicial Election.

SHEBOYGAN, Aug. 7.

Messrs. Editors :

Men of all parties, so far as I have heard any expressions, are openly and decidedly opposed to the late nominations for Judges of the Supreme Court, and the general cry is "We must and will beat it." The names of several prominent men are mentioned here as acceptable candidates. All seem to agree that EDWARD V. WHITON of Rock is *the* man for Chief Justice. As to the Associates, Mr. RANDALL of your city, Mr. SHAFTER of this place, and Gov. DODY, or Mr. MARTIN, at the North, are much talked of. With either of these gentlemen, I think success pretty certain.

Racine, Aug. 7

Dear Sir :

The remarks in to-day's *Sentinel*, on the subject of the recent nominations for the Supreme Court will, I hope, awaken the People to the importance of selecting fit men for this most responsible station. It appears to me desirable to hold a mass Convention, independent of party, to recommend suitable candidates to the electors of Wisconsin for the subject. In this quarter Mr. WHITON is the only candidate talked of for Chief Justice. We have no objections to either of the gentlemen from your city, named in the *Sentinel*, tho' we think Mr. TWEEDY's name would add great strength to the ticket. Will he consent to run ?

The above are extracts from letters received by us yesterday. They are indications of the feeling every where manifesting itself against the Madison party nomination for Supreme Court. We entertain no sort of doubt that a large majority of the electors of this State disapprove of and will repudiate that ticket, and the only difficulty in the way of electing good men to the Supreme Court grows out of the number of candidates proposed, in different quarters, for this responsible post. Let us hope, however, that a free interchange of opinions between the friends of the several gentlemen named, will result in a general concurrence of sentiment and concentration of effort. It is of *vital* consequence to every interest of Wisconsin that the Madison nominations should be defeated, and upright, able and independent men elected to the Supreme Bench. To that consideration every personal preference, every local feeling, every thought of party advantage must be unhesitatingly given up.

The Normal Institute.

MESSRS EDITORS :

As an observer, and one becoming a somewhat interested observer of the West, and particularly of Milwaukee, permit me to make a few suggestions in relation to one of its primary interests—its institutions of learning. In its liberality in this direction, it seems to me to fall short of most other places of the West. For example, the comparatively small village of Beloit has raised $12,000 for a college: the little village of Rockford, $6,000 for a seminary; Racine, $8,000 for a college; the village of Elgin, $2,000 for its schools: Waukesha has given very liberally for its college: and the citizens of Chicago are making $1,000 subscriptions for the same object. A most commendable spirit of liberality pervades the West generally towards its institutions of learning, to which, I am afraid, this rich and fair city is an exception. I am induced to form this opinion from observing the apathy which has been manifested towards the Female Normal Institute. A vigorous effort has been making for a year in favor of this Institution, second in importance to none of those above mentioned. Such has been the importance attached to it, and the interest felt in this enterprize at the East, that individuals there have disinterestedly contributed $3,000. A noble edifice is in progress, which will be *one* of the greatest, if not *the* greatest ornament of the city, and which will offer a stronger inducement than any one thing to respectable and wealthy families to locate here; and an embarrassment is threatened to its completion, for the want of 12 or $15,000.—And will it be readily believed that this city, with its 24,000 inhabitants, after a year's effort, and an appeal to all the citizens, has raised but $3,000? Open to all, not denominational in its character, but based upon the broad platform of liberality and Christian principle, it makes its appeal to all. In view of the importance of such an Institution, I have been surprised at the frivolous excuses which many of our wealthy citizens make, for withholding contributions to it. The good name of this city has already suffered, and will suffer more by such a course of indifference.

On the supposition that almost every one would be glad to manifest some regard for such a noble object, who were unable to give largely, a subscription of one dollar and under, has been circulated. Many of the young men cheerfully and nobly responded it, but I am told that others, who can spend their dollars freely at the theatre and concert, refused this small expression of their regard for this institution, at which the young ladies of this city are to be educated.

Their tastes and degree of intellectual cultivation and refinement, can be guessed without a great degree of Yankee shrewdness.

But an opportunity is now presented for every one to make a small offering for this object, and for self gratification at the same time. The Baker Family have consented to give a Concert on this (Tuesday) evening, for its benefit. It is to be hoped that the liberality of the community for these two combined objects, will be conspicuous. The Bakers have none of the airs of foreign opera singers, which are not very attractive to the plain common sense of Americans: but they have true American hearts, which are seen in their faces and heard and felt in their song.

We are told that the owners of the Boat gave them a free passage to this place for the occasion. the "States" feeds them gratuitously, and the lessee furnishes the Hall without charge. Let the same liberality be universal, and let the Hall be once filled with the lovers of female education and genuine song.

Messrs. Editors :

Said Mr. PARK COON in the Madison Judicial Convention :—

"*He did not think a Whig could arrive at just conclusions on political subjects, and serving on those subjects, he should be led to distrust his judgment on the bench.*"

Said the German Scott Volunteers in their resolutions :—

"That the most dangerous symptoms of (internal) degeneration appear—in the fanatical endeavoring to make political opinions the only issue in judicial and other elections, and the test of personal value."

Said the *News*:—

"The fact that every citizen of this free country—is opposed now and always to making his partizan opinions a test in personal, religious, or business matters, is too notorious to escape the observation of the most ignorant."

Mr. PARK COON is no more, then, a citizen of this free country, we suppose. How is it, Mr. *News* ?

City Matters.

Health of the City.

If there is any one class of men who deserve prison fare at hard labor, it is the miserable slanderers who devote their attention to the circulation of the falsehoods relative to the health of the different cities on the great lines of travel. Now they start a paragraph relative to Buffalo—now as to Sandusky; now it is Detroit, and now Chicago, and anon Milwaukee, in which the people are dying off by hundreds of cholera or some other epidemic.

So far as our city is concerned, these stories are without a shadow of foundation. In parts of the city where there are frequently hundreds of immigrants huddled together, there have been cases of cholera perhaps, of deaths by shipfever certainly: but there has never been a season, when Milwaukee has been so distressingly healthy (for the doctors) as it is now. And why shouldn't it be so? Our city is admirably situated to catch the fresh breezes from Lake Michigan; and those portions which might, at ordinary stages of water, be prejudiced by exhalations from low grounds, are covered with fresh water, moved by every breeze. The water stands near 3 feet higher in the river than it did in 1848, and this circumstance, which has been the ruin of many good cellars in the stores along its banks, ensures good health to those who live on the streets graded through the low ground. We repeat that at no former time has Milwaukee been more healthy than now, and we confidently invite our Eastern friends to come out and see if they can't find purer air and healthier breezes than at home.

THE CONCERT TO-NIGHT.—In the upper part of Milwaukee street, 1st Ward, is an extensive building just roofed, and so far completed as to attract the attention of both citizens and strangers to its peculiarly neat style of architecture. It is a building which would do credit to any city.

So far have the ladies and others interested in the establishment, on a sure foundation and in an edifice fitted for its wants, of the Milwaukee Female High School in this city, gone. They now purpose to go on and complete and furnish the building immediately, and to aid them, the BAKER FAMILY, known as one of the very best bands of choral singers in the country, have consented to give a conc

Skupenski, the Pole, who was executed yesterday at Philadelphia, made a confession last Monday night, to Rev. E. Williams, one of his spiritual advisers. He stated that he was 28 years of age, was born in the kingdom of Russian Poland, and was a smith by profession; was in the revolution at Cracow in 48, fled to France, and from thence to Switzerland and England, and came to the United States in 1849, worked one year in New York, and from thence went to Baltimore and Philadelphia. At the latter place he became acquainted with a man named Kaiser, at whose house he stopped.

That Kaiser induced the boy Lehman to come to his house while he (Skupenski,) and his brother Blaize were absent at work, and at that time the boy was murdered and his body placed in the cellar. That he was induced by threats from Kaiser to assist in carrying the body to the River, after the latter had cut it in small pieces, and made there separate bundles of it, and that as a reward for assisting he received 30 pieces of Jewelry of but little value, and in conclusion he asserts that his brother Blaize was entirely unacquainted with the affair from the beginning to the end.

THE TRIBUNE.

SCOTT Leads the Column!—Forward!

"Now, brothers, now is the hour!"

THE publishers of THE NEW YORK TRIBUNE proffer copies of their regular and full Weekly issue (eight large pages, each six columns, of Literature, Politics and News) for the remainder of the Presidential Campaign, commencing with the 5th of August and closing with Nov. 25th, when we confidently hope to announce their triumph,—on the following terms:—

1 copy for the 15 weeks	$2 37½
6 copies, to one address	9 00
10 copies do do	3 00
25 copies do do	7 50

Payment in all cases to accompany the order.

The selection of WINFIELD SCOTT for President and WILLIAM A. GRAHAM for Vice-President, has gratified our ardent wishes and strengthened our earnest hopes. Our conviction has long been fixed that Gen. Scott is the man fitted and marked out by his heroic achievements—his inestimable services, at critical periods, in preserving our National tranquility and preventing the effusion of blood—by his unquestioned integrity, his self denying patriotism, his unsectional position and his humanity—to unite the Whig Masses in one enthusiastic, irresistible host and lead them on to victory. So believing, we have labored and hoped for his nomination, and we now confidently look to the result to justify our sanguine anticipations.

THE TRIBUNE, standing on its own Platform and knowing no other authority but truth, will do its utmost for the election of Scott and Graham. It will not be absorbed by Political discussion. We have chosen to prefer Campaign subscribers a large sheet rather than a small and cheaper one, because the postage is the same, and because we wish to extend the knowledge of the News which we habitually le. The letters of our Associate, BAYARD TAYLOR, who next writes us from Syria, the ruins of Nineveh, Constantinople, &c., will appear every week, with reviews of new Books, Proceedings of Congress and the general Foreign and Domestic News of the day. If there is another journal in America more valuable or interesting than THE TRIBUNE, it is not because more money or labor is spent thereon.

All the Editions of THE TRIBUNE are printed in large Quarto form on a sheet of 31 by 46 inches, containing eight large and compact pages of reading matter. About half the Daily is devoted to Advertisements, very few of which appear in our other editions. No one of these editions of 8 pages contains more reading matter than THE TRIBUNE, which is afforded at $5 per annum, or $1½ for three months.

SEMI-WEEKLY TRIBUNE:
One copy (per annum) $3; Two do. $5; Ten do. $20.

WEEKLY TRIBUNE:
One copy (per annum) $2; Three do. $5; 8 do. $10; Twenty do. (to one address) $20.

☞ Payment in all cases required in advance.

Subscriptions for THE CAMPAIGN TRIBUNE, or either of our regular issues, are respectfully solicited. All notes of specie paying banks taken at par and may be remitted at our risk. Please address

PLANE OSPHERICAL MACHINE,

FOR CRUSHING, GRINDING, AND PULVERISING.

COCHRAN'S PLANOSPHERICAL QUARTZ CRUSHING AND PULVERIZING MACHINES, of various sizes, from 6 inches in diameter, weighing from 500 lbs. to 10 tons each, are now in daily operation for the inspection of the public, and will be submitted to any reasonable practical tests proposed by parties interested.

These machines, by their simplicity of construction, their durability, their undoubted principles upon which they operate, their effective operation and their ability entitled to the consideration of all parties engaged in grinding, crushing, and pulverizing, Quartz, Ziles Ore, and all other ores, minerals, &c.

It is the peculiar feature of the economy of these machines that they are found capable of crushing and pulverizing into the finest powder any amount of Quartz or other earthy matter, in proportion to the amount of weight or power applied. The earthy matter is so completely ground and pulverized, that the Gold may be easily separated, and subjected to any process of amalgamation that may be necessary.

The machines work and deliver wet or dry, as may be required, and run with little friction (being almost without machinery) and require little repairing. The principle upon which they operate precludes the possibility of their being put out of order; nor do they heat any material while being ground or pulverized. They are also well adapted for purposes of grinding and pulverizing, from those required by the DRUGGIST to those of the most extensive operations in CALIFORNIA and AUSTRALIA.

The proprietors of this invention solicit examination, and will prove by practical tests the vast superiority and economy of these machines over any other, for crushing, grinding or pulverizing, heretofore offered to the public.

Circulars will be furnished those who may desire particular information, on application by letter or otherwise, to the Principal or Secretary. Young Ladies from abroad can be furnished with a home in the family

PATENTED JULY 22, 1851.

THIS machine is now in successful operation at the shop of Wm. Hawkins in this city, and will dress Staves for

Packing, Flour and Whiskey

BARRELS,

and PIPES or HOGSHEADS, at the rate of

600 Whiskey or 800 Flour Barrel Staves

In fact, any stave that can be worked by hand will be dressed by this machine, either for tight or slack work, from 22 inches to 72 inches in length or any measurable width, and *any required size* and in the most perfect manner. The stave passes through the machine a single time, is dressed by rotary cutters and is in ready for the truss hoops. The dressing of the chimes and the crozing of the ends is performed perfectly. The same hand is made of iron, is strong and durable, and is not apt to get out of order. Six horse power, steam or water is sufficient to drive the machine with all the speed necessary.

The State rights having purchased of Wm. Hawkins the patent right for the United States are prepared to sell rights for States, Counties, or for running single machines and to furnish and set up the machines, warranted to perform perfectly. In addition to the advantage of turning out the finished stave the rough stave, the rapidity and perfect manner with which it performs its work, constitute the value of this machine.

STOVES, STOVES.

RELIANCE WORKS,

West Water Street, Milwaukee.,

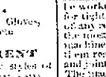
Decker & Seville,

Proprietors and General Manufacturers of

STOVES,

(BOTH WOOD AND COAL.)

FOR COOKING, PARLOR & OFFICE USE; GRATES, LARD OILS, CAMPHENE AND COUNTER BALANCE



LAMPS, PLOUGHS, CASTINGS, SHEARS, STRAW CUTTERS, CORN SHELLERS, AGRICULTURAL IMPLEMENTS AND PORTABLE

GRIST MILLS.

THE subscribers, thankful for past favors, now beg leave to announce that they have removed to the Store in business to their former customers and the public generally, and are now prepared to offer to them the largest assortment of Stoves in either branch of the business ever offered in this city.

In offering our Stoves to the public we do so with the full assurance that we can please all who favor us with their patronage, as many in this place and vicinity can testify. We can be purchased at any other place in the city. Having entirely new patterns, manufactured with care and of the best materials. The following list of patterns is offered, which we recommend that they will be satisfactory in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE,

(Which received the First Premium of the Second Class, lately held at Janesville.)

Possessing great advantages over every other stove in the market, as it gives an additional oven, and that has been well tested, and gives universal satisfaction.

THE PREMIUM is different in its construction from any other made, in the arrangement of the fire boxes—consequently it is more economical in the use of fuel.

THE JUNO PARLOR is claimed to either wood or coal, being decidedly the neatest ornamental stove offered for the trade. Its proportions are fine, and when finished and ornamented with the bronzes of the day, it is one that will be ornamental, highly finished, and is one to suit every purchaser. The entire top is of cast iron, and will not crack. The ornaments are screwed on with three bolts, and are not liable to get out of order. It is easily adapted to either wood or coal.

The **PARLOR** is the best coal stove ever got up as a register of heat.

Persons purchasing their stoves of us, in the event of any of the above patterns proving unsatisfactory, will have the privilege of exchanging them at all times before the expiration of one year from the time of purchase, as we are confident that we can please all who favor us with their patronage.

Persons wishing to purchase, would do well to call and examine his stock before buying elsewhere. Among which
